### UAV TYPE: TRINITY

October 2018

-  200 m AGL | 656 ft
-  55 Min
-  4,6 km<sup>2</sup> | 460 ha
-  6 m/s | 11.7 kn
-  31° C | 87 F
-  6,2 cm | 2.44 inch
-  Sony UMC-R10C 16mm
-  1070
-  Side 80%  
Forward 70%

Client: Pt. Adaro Indonesia  
Region: Tanjung Tabalong  
Project: Site/coal pit aerial mapping

An official opening of the Paringin mine was held in August 1991. The first sale of Adaro's coal was to Krupp Industries of Germany who were interested in its environmental qualities. Since those early days, the Tabalong mine has grown to be the southern hemisphere's largest single-mine site.

Pt. Adaro: "The Trinity from Quantum-Systems is characterized by efficiency, efectivity, compatibility and safety."
